

Goldsmith Seed, Inc. Partners with Landmark Plastic Corporation

Akron, OH – April 2006 - Landmark Plastic Corporation was the container manufacturer for Goldsmith Seed, Inc. new branding for the Ramblin'™ Petunia at the 2006 California Pack Trials.

The Ramblin'™ Petunia container is available in a Landmark Plastic injection-molded Trade Gallon (I-NCTGAL) and Trade 6.00 (I-T600MP) and in Landmark's NEW thermoformed Trade 6.00 (X-T600). Additional container sizes may be available, upon approval.

All containers have wrap around graphics, which include vibrant Ramblin'™ colors and declarations of capacity and identity. Additional information that can be printed on the pots are the declaration of responsibility and bar code.

Goldsmith Seed's Ramblin'™ Petunia is a trailing petunia with non-stop blooms covering the plant all summer long. This petunia is a great annual for ground cover and for mixed containers. Please visit Goldsmith Seed's website for further information www.goldsmithseeds.com.

Growers please contact your local Landmark distributor or Landmark representative for package information and pricing.
