

PRODUCT GUIDE

L LANDMARK
PLASTIC

A photograph of four potted plants in colorful plastic containers. From left to right: a tall, thin evergreen in a red pot; a bushy plant with large green leaves in a purple pot; a bushy plant with smaller green leaves in a lime green pot; and a bushy plant with small green leaves in a blue pot. The pots are arranged in a row on a light-colored tiled surface against a white background.

For 30 years, Landmark Plastic has been making life easier and less chaotic for growers, from propagation to patio. Our wide range of containers, trays, packaging and growing systems for the horticultural industry were all designed with a deep understanding of what growers need. And what they don't.

TRAYS & PACKS

Landmark manufactures one of the most extensive lines of trays and packs in the industry, with 12 different outside trim dimensions, all easy to use and ready to help reduce chaos.

- Made of high-quality plastic resins for easy de-nesting
- Precision perforation between packs
- Specifically designed to accommodate automation equipment
- Ideal for filling, growing and transporting

LANDSCAPE TRAYS

Designed with features that capture sales among both landscapers and consumers.

- One-piece construction for single variety plants
- Made from high-quality, tear-resistant materials
- Water channels for even flow to all cells
- Available in solid or co-extruded colors

MARKET PACKS

Landmark's broad line of market packs offers unique systems for the retail market.

- Perfect for do-it-yourself consumers
- Easy handling and quick sales
- Labeling on either the packs or the handles (X-19SEH) makes them ideal for retail sales
- Accommodates custom handles and tags (selected items)

SQUARE POT & TRAY SYSTEMS

Our thermoformed square pots and trays are an economical, easy-to-use growing system for virtually any crop.

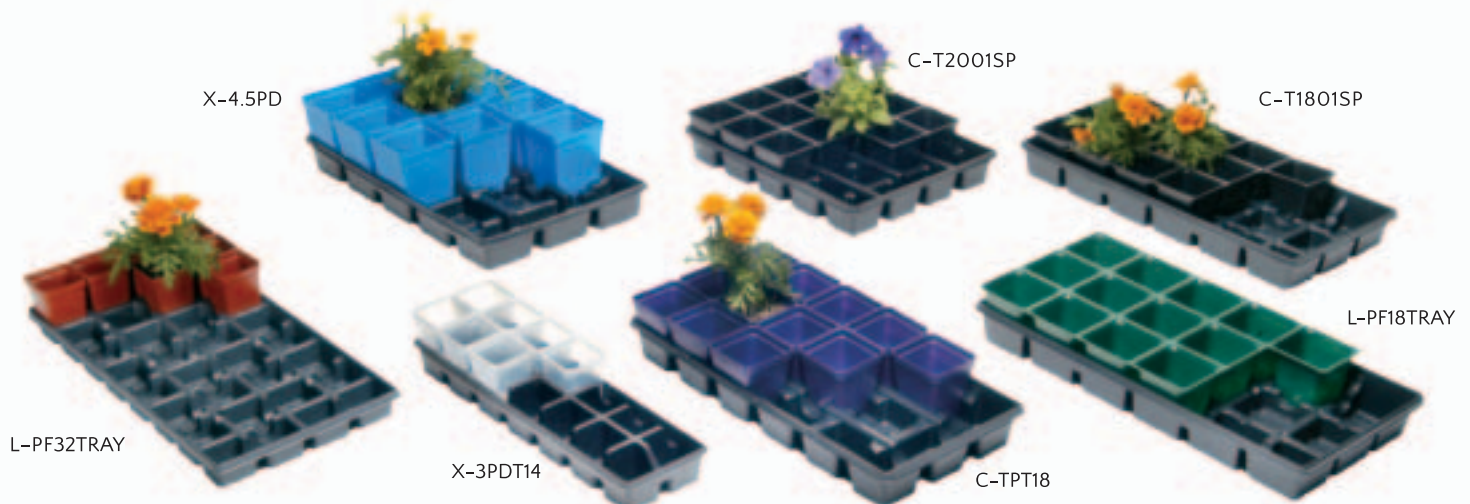

- Wide selection to meet your marketing and retail needs
- Easily accommodates automation equipment
- Precision-formed pots with uniform drainage
- Multiple tray configurations for easy handling and maximum space on carts and shelves

CO-EXTRUDED THERMOFORMED POTS

Protect your roots with our co-extruded thermoformed round pots.

- Bi-level drainage promotes air pruning and discourages root circling
- Large surface area for labeling and printing
- In-rim tag slots available on most items
- Ideal for use in automation equipment
- Available in solid or co-extruded colors

BRANDING WITH LABELING, PRINTING & COLORS

We make it easy to get your product noticed by consumers with our branding, printing and labeling expertise. Choose from our wide variety of in-house standard and custom colors, or let us match your specific color requirements – to reinforce your brand's image and provide instant product identification among both growers and consumers.

Custom Colors

Printing

It's never been easier to increase sales just by enhancing the look of your plants and helping your products stand out with vibrant, colorful pots.

- Boost flower vibrancy with matching pot colors
- Differentiate your plants by price or variety
- Enhance your POP displays
- Add seasonal recognition (pastels for spring, warm colors for fall)
- Minimum quantities may apply

Our high-quality on-pot printing and labeling options also make a splash at retail. Add your company logo and tagline to pots. Include a printed message right on the pot or its handle. Or add your contact information, website, growing instructions – just about anything you want to include.

Standard Colors

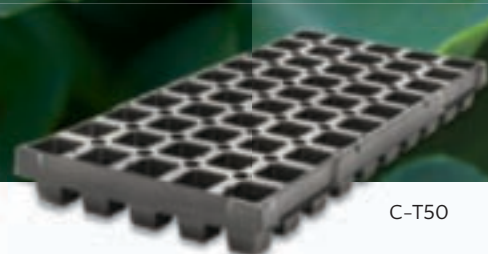

Labeling

PROPAGATION TRAYS

Our diverse line of high-quality plug trays, plug sheets and seedling trays represent true innovation. Precision-manufactured for trouble-free use in seedling and transplanting equipment.

- Continuous plug trays are available
- Plug sheets are ideal for perennial and liner production
- Seedling trays have root channels and step-bottom drainage, ideal for deciduous and evergreen ornamentals (selected items)

WATER CONSERVATION

Landmark is an industry leader in the research and development of water conservation products for horticulture. It's just one more way we help solve growers' everyday challenges.

- Helps growers save water, fertilizer and time
- Organizes crops to maximize growing space and air circulation
- Elevated overflow drains remove excess water while creating a reservoir for proper water and fertilizer uptake

NURSERY CONTAINERS

Our injection-molded nursery containers are stackable, sturdy and smooth. Patented Maxi-Grow™ Plus Rim-Lok bottoms allow secure, easy stacking and transport.

- Tag locks in the rim help growers clearly and securely identify plants
- Smooth sidewalls allow compatibility with automated labeling and printing equipment
- Standard colors: black, green, terra cotta
- Custom colors available upon request

HANGING BASKETS

Created for both growers and consumers. Patented reservoir and Maxi-Mizer® drainage system for saucerless baskets allows water to flow through, yet provides a reservoir at the bottom.

- Available with smooth bowls, fluted sides or swirled sides
- Sturdy baskets come with or without a saucer
- Works with plastic or wire hangers to meet the growers' needs

Recycle with Landmark

Landmark Plastic uses millions of pounds of recycled plastic annually to produce one of the most complete product lines for the horticulture industry. We are proud of our ongoing efforts to reduce the amount of waste sent to landfills, to conserve energy resources and to sustain the environment. We are also committed to helping our customers do the same.

It's simple to recycle your used horticultural containers with Landmark Plastic. You'll be making a great contribution to closing the product recycling loop — by taking the following three easy steps:

- 1) Sort by plastic type
- 2) Bundle and palletize your materials
- 3) Contact us at 800.242.1183 to arrange for pick up
